INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and City Council City of Yerington, Nevada

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the City of Yerington, Nevada, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City of Yerington's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the City of Yerington, Nevada, as of June 30, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund, Municipal Administrative Assessment Fund, and Special Revenue Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Change in Accounting Principle

As discussed in Note 10 to the financial statements, in 2018 the City adopted new accounting guidance, GASB Statement No.75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions and GASB Statement No. 82, Pension Issues. Our opinion is not modified with respect to these matters.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and the Schedule of Total OPEB Liability and Related Ratios and the Schedule of the City's Proportionate Share of the Net Pension Liability on pages 4-11 and 63-64 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Prior-Year Comparative Information

We have previously audited the City's 2017 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities, the business-type activities, and each major fund in our report dated October 21, 2017. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2017, is consistent, in all material respects, with the audited financial statements from which it has been derived, restated for the changes in accounting principles described above.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Yerington, Nevada's basic financial statements. The individual fund financial statements, and supplementary information section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund financial statements referred to in the preceding paragraph are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements referred to above are fairly stated in all material respects in relation to the basic financial statements as a whole.

The other supplementary information section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 29, 2018, on our consideration of the City of Yerington, Nevada's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering City of Yerington, Nevada's internal control over financial reporting and compliance.

Yerington, Nevada November 29, 2018

CITY OF YERINGTON, NEVADA MANAGEMENT'S DISCUSSION AND ANALYSIS FOR FISCAL YEAR ENDED JUNE 30, 2018

As financial management of the City of Yerington (the "City"), we offer the readers of these financial statements this narrative overview and analysis of the financial activities of the City for fiscal year ended June 30, 2018. This discussion and analysis is designed to assist the reader in focusing on the significant financial issues, provide an overview of the City's financial activities, identify any significant changes in financial position, and to identify individual issues and concerns. We encourage readers to consider the information presented herein, in conjunction with the financial statements and notes to gain a more complete picture of the information presented.

Financial Highlights

- The City's governmental net position increased \$2,178,894 to \$6,262,871 from \$4,083,977 in 2017. The City's governmental net investment in capital assets is \$6,700,793 in 2018 compared to \$4,256,815 in 2017.
- The City's business-type activity net position increased by \$237,360 to \$31,576,135 from \$31,338,775 in 2017. The City's business-type activity net investment in capital assets is \$25,418,733 in 2018 compared to \$25,196,128 in 2017.
- The business-type activities recognized capital contributions totaled \$136,080 in 2018 compared to \$1,432,735 in 2017. This decrease in capital contributions is largely attributable to the completion of the ARCO Sunset Hills water system project year 2017.
- The City's total revenues were \$6,851,666 consisting of \$4,209,918 in governmental activities and \$2,641,748 in business-type activities. Business-type activities revenues of \$2,641,748 included grants and contributions totaling \$369,535. User fee charges were \$2,272,213 and account for 86.0% of total revenue sources.
- The City's total expenses were \$4,435,412 consisting of \$2,031,024 in governmental activities and \$2,404,388 in business-type expenses.
- The City's primary revenue sources (besides grants and contributions) are charges for services of \$2,272,213 and consolidated taxes of \$453,142. These two revenue sources comprise 33.1% and 6.6%, respectively, of total revenues.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's financial statements, which are comprised of the basic financial statements and the notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Government-wide Financial Statements

Government-wide financial statements are designed to provide an overview of the City's financial position by governmental and business-type activities, as well as the government as a whole. The Statement of Net Position combines and consolidates all of the City's current financial resources with capital assets, deferred outflows of resources, long-term obligations, and deferred inflows of resources, distinguishing between governmental and business-type activities. The end result is net position which is segregated into three components: net investment in capital assets; restricted and unrestricted position.

The Statement of Activities is focused on both the gross and net cost of governmental and business-type activities. Program revenue which directly offsets costs of specific functions is allocated to those functions, resulting in net expenses for governmental and business-type activities. The City's general revenues offset remaining costs resulting in the annual increase or decrease in net position. This statement is intended to summarize the user's analysis of the net cost of various governmental services that are supported by general revenues.

Governmental activities reflect the City's basic services on a functional basis. Departments included within those functions are identified in the fund financial statements. Ad valorem taxes, consolidated taxes, and other identified general revenues support the majority of these services. Business-type activities reflect enterprise operations where a fee for service typically funds all or most of the cost of operations, including depreciation.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objects. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds. Fund financial statements provide detailed information about the City's major funds. Based on restrictions placed on the use of monies, the City has established many funds that account for the multitude of services provided to our residents.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities on the governmental-wide financial statements. The City's major governmental funds are the General, Municipal Court Administrative Assessment, Special Revenue, and Fixed Asset Acquisition. Most of the City's basic services are reported in these funds that focus on how money flows into and out of the funds and the year-end balances available for spending. These funds are reported on the modified accrual basis of accounting that measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services being provided, along with the financial resources available.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities on the government-wide financial

statements. By doing so, readers may better understand the long-term effect of the government's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The City maintains a multitude of individual governmental funds. Information is presented separately on the governmental fund balance sheet and on the governmental fund statement of revenues, expenditures, and changes in fund balance for the major funds, which were identified earlier.

Proprietary Funds – The City maintains one proprietary fund type. Enterprise funds are used to report the same functions presented as business-type activities on the government-wide financial statements. The City uses enterprise funds to account for water and sewer operations provided to citizens within the City and nearby service areas. The City's major proprietary funds are: Water Utility Fund, Sewer Utility Fund, and Crystal Clear Water Utility Fund.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided on the government-wide and fund financial statements.

Other Information – In addition to the basic financial statements and accompanying notes, this financial statement also presents individual fund statements and schedules.

The City adopts an annual budget for all of its governmental and business-type individual funds. Budgetary comparison schedules have been provided for the General Fund and each major special revenue fund to demonstrate compliance with the budget and are presented as required supplementary information.

Financial Analysis of the City

One of the most important questions asked about the City's finances is "Is the City as a whole better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position report information about the City's activities in a way that will help answer this question. These two statements report the net position of the City and the changes in them. One can think of the City's net position – the difference between assets, deferred outflows, liabilities, and deferred inflows – as one way to measure financial health or financial position. Over time, increases and decreases in the City's net position are one indicator of whether its financial health is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, and new or changed government legislation.

Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, net position was \$37,839,006 (\$6,292,871 in governmental activities and \$31,576,135 in business-type activities) as of June 30, 2018. By far, the largest portion of the City's net position (84.9%) reflects its net investment in capital assets (e.g. land, buildings, equipment and infrastructure, less any related debt used to acquire those assets that is still outstanding). The City uses these capital assets to provide services to citizens;

consequently, these assets are not available for future spending. Although the City's investments in its capital assets is reported net of related debt, it should be noted that the resources needed to repay the debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1 provides a summary of the City's net position for 2018 compared to 2017.

Governmental Activities

While the Statement of Net Position shows the change in financial position of net position, the Statement of Activities provides answers as to the nature and scope of these changes. As can be seen in Table 2 above, changes in net position were an increase of \$2,178,894 for governmental activities and an increase of \$237,360 for business-type activities in fiscal year 2018. In the year 2017, the total increase in net position was \$981,070.

• The governmental activities total revenues in 2018 increased by \$2,434,445 from \$1,775,473 in 2017 to \$4,209,918 in 2018. This large increase in revenue is largely attributable to the FFA airport runway construction grant of \$2,541,028.

• Governmental activities expenses of \$2,031,024 in 2018 increase by \$69,031 or 3.5% in year 2018 compared to \$1,961,993.

Business-Type Activities

- The business-type activities charges for service revenues increased \$84,452 from \$1,980,476 in 2017 to \$2,272,213 in 2018.
- The business type activities total expenditures were \$2,404,388 in 2018 compared to \$3,278,837 in 2017 or a decrease of \$874,449 mainly due to ARCO customer hookup expenses of \$931,618 deemed not capitalizable as expenses occurred on private property of the owner in year 2017.
- The business-type activities capital contributions totaled \$136,080 in 2018 compared to \$1,432,735 in 2017. Year 2017 capital contribution was largely attributable to the ARCO Sunset Hills water system project which was completed in late August 2016.

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds: The focus of the City's governmental funds is to provide information on the near-term inflow, outflow, and balances of spendable resources. Such information is useful in assessing the City's financial requirements. In particular, unrestricted fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported a combined ending fund balance of \$1,280,684 which is a decrease of \$244,588 compared to the prior year amount of \$1,525,272. This decrease is largely attributable to the General Fund incurring a reduction of fund balance of \$106,776 and the Fixed Asset Acquisition Fund reduction of fund balance of \$151,256 due to FFA matching grant funding requirements of \$162,511. While the bulk of the governmental fund balances are not reserved in the governmental fund statements, they may lead to restricted net position on the Statement of Net Position due to being restricted for use for a particular purpose mandated by the sources of the resources, such as state statutes.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the fund balance of the General Fund was \$285,410 while the 2017 fund balance was \$392,186. Fund balance represents approximately 17.4% of the total General Fund expenditures and transfers out.

The City's General Fund ending fund balance decreased \$106,776 in 2018 while the fiscal year 2017 decrease was \$100,361.

General Fund Budgetary Highlights

The City's budget is prepared according to Nevada law and is based on generally accepted accounting principles. The City adopts an annual budget following budget workshops and a public hearing. The budget provides proposed expenditures and the means of financing them. The most significant budgeted fund is the General Fund. With the General Fund supporting many of our major activities such as our public safety programs, as well as most legislative, judicial and executive activities the General Fund is monitored closely looking for possible revenue shortfall or over spending by individual departments. In summary, the noted differences and explanations are as follows:

- General Fund total revenues of \$1,534,429 were \$9,656 over budget and reflected a modest increase of \$13,319 over 2017 total revenues of \$1,521,110.
- General Fund total charges for services revenues of \$99,180 were under budget by \$47,120 consisting largely of airport fuel charges decreasing from \$71,229 in 2017 to \$65,345 in 2018.
- The General Fund total expenditures of \$1,640,190 were under budgeted appropriations of \$1,708,867 by \$68,677.

Capital Assets and Debt Administration

Capital Assets: The City's investment in capital assets, net of depreciation, for its governmental and business-type activities as of June 30, 2018 is \$32,322,387 (net of accumulated depreciation and related debt). This investment in capital assets includes land, buildings and systems, improvements, equipment, vehicles, and roads and highways. In the notes to the financial statements, Note 3 (Capital Assets) provides capital asset activity during 2018.

Major capital asset events during the current year include the following:

• The Governmental Funds had \$2,692,921 in asset additions for the year. Major additions were a completion of the City's airport resurfacing project at current year costs of \$2,692,921 associated with resurfacing of the City's airport runway. The City is following a 5-year capital improvement plan and limits the purchase of new assets as deemed necessary.

The Business Type Funds had net asset additions of \$1,316,524 for the year. New asset additions consisted of largely \$64,295 on rehabilitation of California Street well, \$1,023,387 in preliminary engineering design costs associated with upcoming City water line and sewer lines project. The City also incurred \$63,348 in preliminary design costs associated with upcoming Yerington Colony water line and sewer line replacement project. The City also incurred \$233,455 in construction costs associated with Phase II hook up of eleven new customers the to the Sunset Hills service area. ARCO reimbursed the City \$273,469 under an agreement to cover all construction costs. These construction costs of \$233,455 were associated hookup costs occurring on customer's private property and not subject to capitalization since ownership of such improvement belongs to the private parties.

Long-Term Debt:

Governmental Activities:

There are no governmental activity or business-type activity debt obligations in 2019.

The City's long-term obligations include compensated absences. Additional information on the City's long-term debt can be found in Notes 4 and 5 of this financial report.

Economic Factors and Next Years Budget

The City Council and the management of the City consider many factors when setting the fiscal year 2019 budget, tax rates, user fees and other charges. Some of those factors are the local economy and the impact taxes, charges and rates have on the customers.

The City of Yerington population growth has been very flat over the past several years with an estimated population of 3,095.

Current economic indicators have suggested that the current economy will remain in a low growth mode for at least another year. The City remains optimistic that the Nevada Copper mining operations currently under the construction phase will have positive impact on future City revenues. Given these conditions, the City maintains a conservative approach to spending while maximizing its local revenues.

All of these factors were considered in the preparation of the City's 2019 budget. In conjunction with the current economic factors, the City limited its anticipated spending for 2019, and asked department heads to limit spending and capital outlay.

Requests for Information

This financial report is designed to provide our customers and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. Questions concerning any of the information provided in this report or request for additional financial information should be directed to the City Manager of the City of Yerington, 102 South Main Street, Yerington, Nevada, 89447.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2018

	 2018	 2017
t Change in Fund Balances - Total Governmental Funds	\$ (244,588)	\$ (146,030)
Amounts reported for governmental activities in the statement of activities are different because:		
Current year capital outlays are expenditures in the governmental fund financial statements, but they are shown as increases in capital assets in the	2 525 ((2	240.001
government-wide financial statements.	2,727,663	248,091
Depreciation is not recognized as an expense in governmental funds, since it does not require the use of current financial resources. The effect on		
the current year's depreciation is to decrease net assets.	(283,685)	(287,786)
Revenues from property taxes and other revenues is deferred in the fund financial statements until they are considered available to finance current expenditures, but such revenues are recognized when assessed in the government-wide financial		
statements.	1,914	(1,593)
Compensated absences are not due and payable in the current period		
and therefore are not reported in the governmental fund financial statements.	9,787	(5,230)
Future health insurance post-employment benefits are reported in the statement of activities but do not require the use of current financial resources and therefore	25.062	7.1
are not reported as expenditures in the governmental fund financial statements.	25,062	71
Pension contributions made after the measurement date of the pension liability are expensed in the governmental fund financial statements but deferred to the		
subsequent fiscal year in the statement of activities.	8,043	901
Changes in net pension liability resulting from differences in actual and projected earnings, experience and changes in proportionate share do not affect		
current financial resources and are not reported in the governmental funds.	 (65,302)	 5,056
Change in Net Position of Governmental Activities	\$ 2,178,894	\$ (186,520)

Note 1 - Summary of Significant Account Policies:

The City of Yerington (the "City") is an incorporated city operated under the applicable laws and regulations of the State of Nevada. The financial statements of the City of Yerington have been prepared in accordance with generally accepted accounting principles in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards, which along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units in addition to other authoritative sources issued by the American Institute of Certified Public Accountants.

GASB Statement No. 34 established a financial reporting model for state and local governments that included the addition of a management's discussion and analysis, government-wide financial statements, required supplementary information and the elimination of the effects of internal service activities and the use of account groups.

The GASB determined that fund accounting has and will continue to be essential in helping governments to achieve fiscal accountability and should, therefore, be retained. The GASB also determined that government-wide financial statements are needed to allow the users of the financial reports to assess a government's operational accountability. The GASB model integrates fund-based financial reporting and government-wide financial reporting as complementary components of a single comprehensive financial reporting model.

Reporting Entity

The City, for financial purposes, includes all of the funds relevant to the operations of the City of Yerington. The financial statements of the City of Yerington include those organizations that are controlled by or dependent on the City and fall under the direct jurisdiction of the Mayor and City Council, which is a separately elected body by the citizens of the City. The Mayor and City Council are legally separate and fiscally independent from other governing bodies, with decision-making authority, authority to levy taxes, authority to prepare its own budget, the power to designate management, the ability to significantly influence operations and is accountable for fiscal matters. Therefore, the City is a primary government and is not reported as a component unit by any other entity; nor is the City accountable for any other entity required to be included in the City's annual financial report.

Basic Financial Statements:

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. The reporting model's focus is on either the City as a whole or major individual funds (within the fund financial statements). Both the government-wide and fund financial statements categorize activities as either governmental activities or business-type activities. In the government-wide Statement of Net Position, both the

governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, etc.) which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. The program revenues must be directly associated with the function or a business-type activity. Program revenues include revenues from fines and forfeitures, licenses and permits fees, service assessments, and charges for services. The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property, sales or gas taxes, intergovernmental revenues, interest income, etc.). Historically, the previous model did not summarize or present net cost by function or activity.

This government-wide focus is more on the substantiality of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. For the most part, the effect of interfund activity has been removed from the government-wide statements. Interfund activities relating to services provided and used between functions are not eliminated.

The fund financial statements' emphasis is on the major funds in either the governmental or business-type categories. Any non-major funds (by category) or fund type would be summarized into a single column.

The governmental major fund financial statements and the individual fund financial statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. This presentation is deemed most appropriate to (a) demonstrate legal and covenant compliance, (b) demonstrate the source and use of liquid resources, and (c) demonstrate how the City's actual experience conforms to the budget or fiscal plan. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented on the page following each statement which briefly explains the adjustments necessary to transform the fund based financial statements into the governmental column of the government-wide presentation.

The focus of the model is on the City as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, (by category). Each presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information.

Basis of Presentation:

The accounts of the City of Yerington are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, net position, revenues, and expenditures (or expenses, as appropriate). Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are reported by generic classification within the financial statements.

The model, as defined in GASB Statement No. 34, establishes criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. Management may also elect to designate a fund, which does not meet the criteria, as a major fund. When applicable, nonmajor funds are be combined in a single column in the fund financial statements. Since the City has a limited number of funds, all of the City's funds are considered major funds as follows:

Major Funds:

Governmental Major Funds

- (1) The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in other funds.
- (2) The Municipal Court Administrative Assessment Fund accounts for a special court assessment for the use in the court system.
- (4) Special Revenue Fund is used to account for the proceeds from specific revenue sources that are legally restricted to expenditures for specific purposes.
- (6) The Fixed Asset Acquisition Fund is used to accumulate resources for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds).

Proprietary Major Funds

- (1) The Water Utility Fund accounts for water utility activities within the City limits of Yerington, Town of Mason, and surrounding areas.
- (2) The Sewer Utility Fund accounts for sewer utility activities within the City limits of Yerington.

Basis of Accounting:

Basis of accounting refers to the point at which revenues and expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made, regardless of the measurement focus applies.

The Government-wide Financial Statements and the Proprietary Combining Financial Statements are presented on an accrual basis of accounting. The Governmental Funds in the Fund Financial Statements are presented on a modified accrual basis.

Governmental Funds:

The City of Yerington maintains its accounting records for all Governmental Funds on the modified accrual basis of accounting as defined by the Governmental Accounting Standards Board (GASB). This method provides for recognizing expenditures, other than accrued interest on general long-term obligations, at the time liabilities are incurred, while revenues are recorded when measurable and available to finance expenditures of the fiscal period. Available is defined as being due and collected within the current period or within 60 days after year-end. When revenues are due, but will not be collected within this 60-day period, the receivable is recorded and an offsetting deferred revenue account is established.

Most major sources of revenues reported in Governmental Funds in the Governmental Fund Financial Statements are susceptible to accrual under the modified accrual basis of accounting. A summary of revenue recognition policies for all major revenue sources is as follows:

Financial Reporting Income Recognition Policies

	Accrued When		
	Available To	Recognized	Accrued
	Finance Current	When	When
Type of Revenue	<u>Operations</u>	Received	Earned
Property Taxes	X		
Consolidated Tax Distribution	X		
Licenses and Permits		X	
Fines and Forfeits		X	
Motor Vehicle Fuel Taxes	X		
State Gaming License Fees	X		
Interest			X
Grants			X
Miscellaneous Revenue		X	

Governmental funds in the Governmental Fund Financial Statements are accounted for on a spending or "financial flow" measurement focus. As such, only current assets and current liabilities are generally included on their balance sheets.

Proprietary Funds:

The Enterprise Funds (Water, Sewer, and Crystal Clear Water Utility Funds) are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Private–sector standards of accounting and financial reporting issued prior to December 1, 1989, are generally followed in proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board (GASB). Governments also have the option of following subsequent private-sector guidance for their business-type activities, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

Budgets and Budgetary Accounting

Budget Policies:

The City of Yerington adheres to the Local Government Budget Act incorporated within state statutes, which includes the following major procedures to establish the budgetary data, which is reflected in these financial statements.

- 1. On or before April 15 of each year, the budget officer shall prepare, or the governing body shall cause to be prepared, on appropriate forms prescribed by the Department of Taxation for the use of local governments, a tentative budget for the ensuing fiscal year. The tentative budget must be filed for public record and inspection.
- 2. Public hearings on the tentative budget are held not sooner than the third Monday in May and not later than the last day in May.
- 3. Prior to June 1, at a public hearing, the Council indicates changes, if any, to be made to the tentative budget and adopts a final budget by the favorable vote of a majority of the members of the Council. The final budget must then be forwarded to the Nevada Tax Commission to approve the requested ad valorem tax rate.
- 4. Formal budgetary integration in the financial records of all funds is employed to enhance management control during the year.
- 5. Budgets for all funds are adopted on a basis consistent with Generally Accepted Accounting Principles (GAAP) other than the City's election to account and budget for activities required to be reported within the General Fund in two separate funds. Appropriations lapse at year-end.

- 6. Budget amounts within funds, and between funds, may be transferred if amounts do not exceed the original budget. Such transfers are to be approved by the budget officer and/or the City Council, depending on established criteria. Budget augmentations in excess of original budgetary amounts may not be made without prior approval of the City Council, following a scheduled and noticed public hearing. During the year, the City Council approved one budget augmentation.
- 7. The above dates may be modified as necessary during years when the Nevada Legislature is in session.

In accordance with state statutes, actual expenditures may not exceed budget appropriations of the various governmental functions of the General Fund, or total appropriations of the individual Special Revenue and Capital Projects Funds. In Enterprise Funds, actual expenses may not exceed the sum of budgeted operating and nonoperating expenses.

Cash and Investments

Cash balances from all funds are combined and, to the extent practicable, invested as permitted by NRS 355.170. Investments are stated at fair market value.

Pursuant to NRS 355.170, the City may only invest in the following types of securities:

- United States bonds and debentures maturing within ten (10) years from the date of purchase.
- Certain farm loan bonds.
- Securities of the United States Treasury, United States Postal Service or the Federal National Mortgage Association maturing within ten (10) years from the date of purchase.
- Negotiable certificates of deposit from commercial banks and insured savings and loan associations within the State of Nevada.
- Certain securities issued by local governments of the State of Nevada.
- Other securities expressly provided by other statutes, including repurchase agreements.
- Certain short-term commercial paper issued by U. S. Corporations.
- Certain "AAA" rated mutual funds that invest in Federal securities.

Cash Restrictions

Restricted cash balances represent cash held by the entity for specific purposes.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Enterprise Funds consider all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

Allowance for Doubtful Accounts:

Each year, the year-end accounts receivable balances in the enterprise funds are reviewed and accounts believed to be uncollectible are identified. The allowance for doubtful accounts is then adjusted to equal the anticipated loss and bad debt expense is charged for estimated losses arising from the current year's operation. Subsequently, the governing board reviews this list of uncollectible accounts and if they agree the accounts are uncollectible and should be written off, the receivable is charged against the allowance for doubtful accounts. Allowance for doubtful accounts at June 30, 2017 for all Enterprise Funds is \$15,925.

Interest Earned on Investments

Interest earned is allocated to the utility funds based upon the proportions of the utility funds' cash balances to the total City cash. All other interest income is recognized in the Fixed Asset Acquisition Fund.

Inventory of Consumable Supplies

All funds, except the enterprise funds, account for materials and supplies inventories as expenditures using the "purchase method", whereby inventories are recorded as expenditures when they are purchased. Enterprise funds account for inventories using the "consumption method" which reclassifies inventories as expenditures when they are used. Enterprise Fund inventories are valued at cost, on a first-in first-out basis as identified by a physical inventory count at year-end.

Capital Assets

Capital assets purchased in all governmental funds are recorded in the Governmental Fund Financial Statements as expenditures at the time of purchase and capitalized at historical cost in the government-wide financial statements. Proprietary funds capitalize fixed assets at historical cost. Interest costs incurred during the construction of capital assets are capitalized as part of the cost of construction (if material). Donated assets are recorded at their estimated fair market value on the date of donation.

Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Public domain (infrastructure) fixed assets, consisting of improvements such as curbs and gutters, streets and sidewalks, and bridges are valued at historical cost or estimated historical cost. The capitalization threshold for all types of fixed assets is \$5,000. Depreciation is provided in an amount sufficient to allocate the cost of the depreciable assets to operations over their estimated service lives on the straight-line basis. The service lives by type are as follows:

Capital Assets (continued)

Buildings and other improvements	10-50 years
Wells and distribution systems	20-60 years
Treatment and collection systems	10-50 years
Equipment	5-20 years
Streets	25 years
Sidewalks, curb & gutter,	

50 years

storm drains, and traffic signals

Property Taxes

All real property in the City of Yerington is assigned a parcel number by the County Assessor in accordance with state laws, with each parcel being subject to physical reappraisal every five years. A factoring system is used to adjust the appraised value during the years between physical appraisals. The property and its improvements are assessed at 35% of "taxable value" as defined by statute. The amount of tax levied is developed by multiplying the assessed value by the City's tax rate. The maximum tax rate was established in the State Constitution at \$5.00 per hundred dollars of assessed valuation; however, as a result of the 1979 legislature session, the tax rate was further limited to \$3.64 per hundred dollars of assessed valuation unless an additional rate is approved by the electorate.

Taxes on real property are a lien on the property and attached on July 1 of the year for which taxes are levied.

Taxes may be paid in four installments payable on the third Monday in August, and the first Mondays in October, January, and March to the Treasurer of Lyon County in which the City of Yerington is located. Penalties are assessed if a taxpayer fails to pay an installment within ten days of the installment due date. After a two-year waiting period, if the taxes remain unpaid, a tax deed is issued conveying the property to the County with a lien for back taxes and accumulated charges. Redemption may be made by the owner and such persons as described by statute by paying all back taxes and accumulated penalties, interest and costs before sale.

Taxes on personal property are collected currently. Personal property declarations are mailed out annually by the County and the tax is computed using percentages of taxable values established by the Department of Taxation and tax rates described above.

The major classifications of personal property are commercial, mobile homes, aircraft and agricultural.

Taxes Receivable, delinquent

Secured roll property taxes receivable reflect only those taxes receivable from the delinquent roll years. No provision for uncollectible accounts has been established since management does not anticipate any material collection loss in respect to the remaining balances. Amounts not collected within 60 days after year-end have been recorded as deferred revenue.

Long-Term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities column in the statement of net assets.

In the fund financial statements, governmental fund types recognize bond issuance costs during the current period. The face amount of the debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance cost, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Compensated Absence Benefits

Governmental Fund Types:

The costs involved in vacation time and sick leave benefits are not accrued as earned but are recorded as payroll costs only when the time is actually used or accrumdated benefits are paid or accrued as the result of a termination of services. The liability for accrued vacation and sick leave benefits is recorded in the government-wide financial statements.

Proprietary Fund Types:

These costs are recognized as expenses when the benefits are earned.

The City of Yerington has established a compensated absence fund to accumulate resources to pay the cost of accumulated leave due upon employee retirement. The City has suspended its annual contributions to the fund.

Net Position

Net Position represents the difference between assets and deferred outflow of resources, and liabilities and deferred inflow of resources. Net positions comprise various net earnings from operating and non-operating revenues and expenses, and contributions of capital. Net positions are classified in the following three components: net investment in capital assets, restricted and unrestricted net position. Investment in capital assets consists of all capital assets, net of accumulated depreciation, reduced by outstanding debt that is attributable to the acquisition, construction and improvement of those assets; debt related to unspent proceeds or other restricted cash and investments is excluded from that determination. Restricted net position consists of assets for which constraints are placed thereon by external parties, such as lenders, grantors, contributors, regulations and enabling legislation, including self-imposed legal mandates, less any related liabilities. Unrestricted consists of all other net position not included in the above categories. The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Fund Balance

In the governmental fund financial statements, governmental funds report up to five components of fund balance, as applicable. These five classifications are: nonspendable, restricted, committed, assigned, and unassigned. Nonspendable fund balance is reserved for portions of net resources that cannot be spent because of their form, such as inventories or prepaid items, or that cannot be spent because they must be kept intact. Restricted fund balance is reserved for the portion of net resources that have externally enforceable limitation on use, such as those imposed by creditors, grantors, contributors, or laws enacted by external entities. Committed fund balance is reserved for the portion of net resources that have had self-imposed limitations set in place by formal action of the governing board. Assigned fund balance is reserved for the portion of net resources that have an intended use established by the governing board or a designated official. Unassigned fund balance is for that portion of net resources that does not meet the criteria to be placed in any of the other four components of fund balance.

Capital Contributions

Contributions are recognized in the Statement of Revenues, Expenses and Changes in Net Position when earned. Contributions normally include capital grants and customer funded system improvements.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for water and sewer activities. Operating expenses are necessary costs incurred to provide the goods or services which is the primary activity of the fund. Revenues and expenses which do not meet these criteria are considered non-operating and are reported as such.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Grant Revenue

Grant revenues received before the revenue recognition criteria established by the Governmental Accounting Standards Board have been met are reported as deferred inflow of resources.

Cost Allocations

A number of employees provide service to multiple departments and funds. The City allocates the respective labor cost based on management's estimates established at the beginning of each fiscal year. Public works employees are the primary group whose costs are allocated. These employees serve the various enterprise funds as well as the public works departments within the general fund. The City also allocates administrative employee costs to enterprise funds.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Nevada Public Employees Retirement System (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Changes in the net pension liability are recorded, in the period incurred, as pension expense or as deferred inflows of resources or deferred outflow of resources depending on the nature of the change. The changes in net pension liability that are recorded as deferred inflow of resources or deferred outflow of resources (that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience) are amortized over the weighted average remaining service life of all participants in the respective pension plan and are recorded as a component of pension expense beginning with the period in which they are incurred.

Projected earnings on pension investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflow of resources or deferred outflow of resources and amortized as a component of pension expense on a closed basis over a five-year period beginning with the period in which the difference occurred. Each subsequent year will incorporate an additional closed basis five-year period or recognition.

Deferred Inflows and Outflows of Resources

Transactions that result in the consumption or acquisition of net assets in one period that are applicable to future periods are reported as either a deferred inflow of resources or deferred outflow of resources in the statement of net position.

Comparative Data

The basic financial statements include certain prior-year summarized comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Such information can only be obtained by referring to the June 30, 2017 audit report.

Note 2 - Cash and Investments:

The City of Yerington maintains all of its cash and investments in bank accounts and time certificates of deposits. The City's cash balance is maintained at Wells Fargo Bank and at Financial Horizons Credit Union, both of which are fully covered by FDIC insurance and collateral pledged to the City of Yerington accounts. The collateral pledged consists of obligations insured or guaranteed by the U.S. Government and its agencies.

The following schedule summarizes cash and investments for the City of Yerington at June 30, 2018:

Cash and Investment Balance Held By: General Activities:				
General Fund	\$	195,011		
Municipal Court Administrative Assessment Fund	Ψ	17,236		
Special Revenue Fund		79,795		
Fixed Asset Acquisition Fund	_	903,706		
Total General Activities Cash and Investments			\$ 1,19	5,748
Business Type Activities:				
Water Utility Fund		5,823,989		
Sewer Utility Fund	_	1,763,111		
Total Business-Type Activities Cash and Investments			7,58	7,100
Total Cash and Investments			\$ 8,78	2,848
Cash Balances Classified By Depository:				
Cash on Hand			\$	300
Commercial Account:				
Wells Fargo Bank			8,69	6,829
Financial Horizons Credit Union			8	5,719
Subtotal Cash			\$ 8,78	2,848

Note 2 – Cash and Investments (*continued*):

The following is a list of cash and deposits indicating collateral or insurance on these deposits:

	Carrying <u>Amount</u>	Bank Balance
Cash on Hand Insured (FDIC) Uninguard but collectoralized by goografies	\$ 300 335,693	\$ - 335,693
Uninsured but collateralized by securities held in the name of the City by its agent	8,446,855	8,447,356
	<u>\$8,782,848</u>	\$8,783,049

Interest Rate Risk:

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk:

State law limits types of allowable investments under Nevada Revised Statutes 355.170 as listed in the accompanying Note 1.

Concentration of Credit Risk:

The City places no limit on the amount that may invest in any one issuer.

Cash Restrictions:

The Crystal Clear Water System received grant financing totaling \$2,760,986 through the Nevada Division of Environmental Protection's Board of Financing Water Projects for a line extension and new water system. Under the Board for Financing Water Projects Policy, the grantee must guarantee that funds will be available in the future for the replacement of capital improvement projects financed with grant funds based on the life of the projects. The City is required to annually deposit into a cash reserve account \$23,044 in the City Water Fund to cover future capital costs. At June 30, 2018, cash reserve balances were \$194,927 for the City Water Fund.

Cash received from customers as security deposits by the City's Water Utility Fund and Sewer Utility Fund are restricted for future refund or forfeit. The amounts at June 30, 2018 are \$5,976 and \$1,958 respectively.

Note 3 - Capital Assets:

A summary of changes in capital assets is as follows:

	Balance			Balance

Note 4 – Enterprise Fund Obligations:

The following are the long-term obligations of the enterprise funds outstanding at June 30, 2018.

Changes in Business-Type Activities Long-term Obligations:

	Balance			Balance	
	July 1,	Obligations	Obligations	June 30,	Due Within
	2017	Issued	Retired	2018	One Year
Long-Term Debt:					
Compensated absences	\$ 27,791	\$ 1,867	\$ -	\$ 29,658	\$ -
Net Pension Liability	933,830	-	21,241	912,589	
OPEB liability	445,578		78,888	366,690	
Total Long-Term					
Obligations	<u>\$1,407,1995</u>	<u>\$ 1,867</u>	<u>\$ 100,129</u>	<u>\$1,308,937</u>	<u>\$ -</u>

Note 5 - General Long-Term Debt:

Governmental Activities:

The estimated value of the accrued compensated absences liability at June 30, 2018 was \$39,116. This balance includes the value of the general government's annual leave and sick leave, which is earned at a rate based upon an employee's longevity with the City. An employee may carry forward unused annual leave, not exceeding 30 days as of the employee's anniversary date, to the next year. The City has adopted a sick leave payback policy based on several factors; ten years of continuous service and employees' vesting in the PERS retirement system with amounts paid for those employees in excess of 30 days upon retirement, not to exceed \$1,000.

Changes in Governmental Activities Long-term Debt:

	Balance July 1, 2017	Obligations Issued	Obligations Retired	Balance June 30, 2018	Due Within One Year
Long-Term Debt:					
Compensated absences	\$ 48,903	\$ -	\$ 9,787	\$ 39,116	\$ -
Net Pension Liability	1,229,391	107,959	-	1,337,350	-
OPEB liability	473,605		101,552	372,053	
Total Long-Term Obligations	<u>\$1,751,899</u>	<u>\$ 107,959</u>	<u>\$ 111,339</u>	<u>\$1,748,519</u>	<u>\$ - </u>

The lawful City general obligation debt limit at June 30, 2018 was \$19,257,903 (NRS 266.600), which leaves a statutorily-available borrowing capacity of \$19,257,903 since the City does not have any general obligation bonds outstanding.

Note 6 - Contracts and Agreements:

The City has entered into several inter-local government agreements. Brief descriptions of the agreements are provided below.

Lyon County Ad Valorem Tax Agreement

In accordance with an agreement dated July 1, 2007, between the City and Lyon County, \$200,000 of the County's annual consolidated tax revenue shall be paid to the City of Yerington in consideration for the City's previous surrender of ad valorem tax rate to the County. The agreement was renewed July 1, 2010, and shall automatically renew on each subsequent three year term thereafter unless terminated by either party upon 60 days notice. The amount is reported as intergovernmental revenue in the General Fund.

Fire Protection and Ambulance Service

Fire protection, emergency medical, and other related services are provided to the City of Yerington by the Mason Valley Fire Protection District in accordance with an agreement effective July 1, 1993. The fee for such service is determined each fiscal year and based on the preceding year's fee adjusted by changes in the City's assessed valuation and Mason Valley Fire Protection District's ad valorem tax rate. The amount paid for fiscal year 2017 was \$140,270 and is reported within the General Fund's public safety function.

County Parks Agreement

Park and recreation facilities located within the City of Yerington were previously provided jointly by Lyon County and the City. Effective April 16, 1992, the City agreed to provide all the services, personnel and equipment which are necessary to operate and maintain the parks and the County agrees to pay the City an amount agreed to by both entities each year. The amount should equal, as nearly as possible, the percentage of budgeted appropriation allocated by the County for parks that the assessed value of the property in the City and Mason Valley Fire Protection District bears to the assessed value of all property in the County. If no agreement is reached, then the amount will be the amount provided in the previous fiscal year. The amount received in fiscal year 2017 was \$40,000.

Water and Wastewater Agreements with Willowcreek General Improvement District

Effective January 1, 2005, the City of Yerington began overseeing daily operations of the water and wastewater systems owned by the Willowcreek General Improvement District. In accordance with the agreement, The City bills and collects fees and is responsible for most system repairs and maintenance. User fees are remitted to the District monthly and the District compensates the City a fixed amount each six months. The City received \$19,000 and \$29,000 for operating the water and sewer wastewater systems respectively. Compensation and costs associated with operating the District's utility systems are included within the City's Water Utility Fund and Sewer Utility Fund.

Note 6 - Contracts and Agreements (continued):

In addition to agreements with other local governments, the City has the following agreements outstanding at June 30, 2018 with private companies.

Nevada Copper Inc. - Water Service Agreement

The City of Yerington has entered into an agreement with Nevada Copper, Inc. to reserve 3,500 acre feet of water for future use in a proposed mining operation in exchange for semi-annual payments of \$43,750 until such time that Nevada Copper, Inc. begins using the water. The agreement also specifies the future use fees to be charged. The agreement, dated August 10, 2009, is for a period of thirty years and revenues are credited to the Water Utility Fund.

Note 7 - Defined Benefit Pension Plan:

General Information about the Pension Plan

Plan description: All permanent full time employees are provided pensions through the Public Employees Retirement Plan (PERS). The plan is a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees Retirement System of Nevada. Chapter 286 of the Nevada Revised Statutes (NRS) establishes a governing board, appointed by the Governor that is responsible for managing the System, including arranging for a biennial actuarial valuation and adoption of actuarial tables and formulas prepared and recommended by the actuary.

Benefits provided: Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed at 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.5% multiplier. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575–.579.

Regular members are eligible for retirement at age 65 with five years of service, at age 60 with ten years of service, or at any age with thirty years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with ten years of service, or any age with thirty years of service.

Note 7 – Defined Benefits Pension Plan (continued):

Police/Fire members are eligible for retirement at age 65 with five years of service, at age 55 with ten years of service, at age 50 with twenty years of service, or at any age with twenty-five years of service. Police/Fire members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 60 with ten years of service, or age 50 with twenty years of service, or at any age with thirty years of service. Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

The normal ceiling limitation on monthly benefit allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

Contributions: The authority for establishing and amending the obligation to make contributions, and member contribution rates, is set by statute. The contribution rates are based on biennial actuarial valuations and expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983 have the option of selecting one of two contribution plans. One plan provides for matching employee and employer contributions (EEC), while the other plan provides for employer-pay contributions only. Under the matching Employee/Employer Contribution plan a member may, upon termination of service for which contribution is required, withdraw employee contributions which have been credited to their account. All membership rights and active service credit in the System are canceled upon withdrawal of contributions from the member's account. If EPC was elected, the member cannot convert to the Employee/Employer Contribution plan.

The City has elected the EPC plan for all employees. The City's contribution to the plan was \$303,070 for the year ended June 30, 2018. The respective rates on which contributions for EPC plans were based were 40.5% of covered compensation for police/fire members and 28.0% for other members.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2018, the City reported a liability of \$2,249,939 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the plan's net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities for the year ended June 30, 2017. At June 30, 2017, the City's proportion of the plan was .01692% while the prior year's proportionate rate was .01607%.

Note 7 – Defined Benefits Pension Plan (continued):

For the year ended June 30, 2017, the City recognized pension expense of \$153,640 and \$117,519 in its governmental and business-type activities respectively. At June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
	Governmental 1	Business-Type	Governmental 1	Business-Type
	<u>Activities</u>	Activities	<u>Activities</u>	Activities
Difference between expected and actual experience	\$ -	\$ -	\$ 87,757	\$ 59,885
Net difference between projected and actual earnings				
on pension plan investments	8,683	5,924	-	-
Changes in assumptions	88,720	60,542	-	-
Changes in proportion and differences between City contributions and proportionate share of				
contributions	71,585	48,849	<u>78,421</u>	53,512
	<u>\$168,988</u>	<u>\$115,315</u>	<u>\$166,178</u>	<u>\$113,397</u>

The amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Governmental	Business-Type
	Activities	<u>Activities</u>
Year Ended June 30:		
2019	\$ (25,660)	\$ (17,510)
2020	29,379	20,048
2021	5,843	3,987
2022	(28,040)	(19,134)
2023	12,104	8,259
Thereafter	9,184	6,268
	<u>\$ 2,810</u>	<u>\$ 1,918</u>

In addition, \$96,403 and \$54,390 are reported as deferred outflows of resources related to pensions in the governmental and business-type activities and represent the City's contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability reported as of June 30, 2019.

Note 7 – Defined Benefits Pension Plan (continued):

Actuarial assumptions:

The total pension liability at June 30, 2017 was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Payroll growth assumption for future years	5%, including inflation
Investment rate of return	7.50%
Productivity pay increases:	0.5% Plus
Salary increases	
Regular:	4.25% to 9.15%
Police/Fire:	4.55% to 13.90%
	vary by service, including inflation
Consumer Price Index	2.75%
Other assumptions	Same as those used in the June 30,
	2017 funding actuarial valuation

Investments: The Board evaluates and establishes expected real rates of return (expected returns, net of investment expenses and inflation) for each asset class. The Board reviews these capital market expectations annually. The PERS's current long-term geometric expected real rates of return for each asset class included in the plan's investment portfolio as of June 30, 2017 are included in the following table:

	Target	Long-Term Geometric
Asset Class	Allocation	Expected Real Rate of Return*
Domestic Equity	42%	5.50%
International Equity	18%	5.75%
Domestic Fixed Income	30%	0.25%
Private Markets	10%	6.80%

^{*}As of June 30, 2017, PERS' long-term inflation assumption was 2.75%.

Discount Rate: The discount rate used to measure the total pension liability was 7.50% as of June 30, 2017. The projection of cash flows used to determine the discount rate assumed plan contributions will be made in amounts consistent with statutory provisions and recognizing the plan's current funding policy and cost-sharing mechanism between employers and members. For this purpose, all contributions that are intended to fund benefits for all plan members and their beneficiaries are included, except that projected contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included.

Note 7 – Defined Benefits Pension Plan (continued):

Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate: The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (7.50%) than the current rate:

	Current	
1% Decrease	Discount Rate	1% Increase
(6.50%)	(7.50%)	(8.50%)
\$3,401,280	\$2,249,939	\$1,293,733

Note 8 – Postemployment Benefits Other Than Pensions (OPEB):

The City offers post-employment health benefits to its retirees under two plans on the pay-as-you-go basis. Accordingly, the City has implemented GASB No. 75 prospectively beginning with the year ended June 30, 2018. Actuarial studies are done periodically to determine the OPEB liability. The most recent valuation was performed for June 30, 2016.

Plan Information

Nevada Public Employees' Benefits Program:

The City contributes to an agent multiple-employer defined healthcare plan, Nevada Public Employees' Benefits Program (PEBP). PEBP is administered by the State of Nevada pursuant to NRS 287. City retirees previously had the option to join the PEBP offered by the State of Nevada. Local Governments are required to pay the same portion of cost of coverage for their retirees joining PEBP that the State of Nevada pays for those persons retired from state service. As of June 30, 2017, twelve City retirees were covered by this benefit plan. The PEBP issues a publicly available report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Benefit Program, 901 South Stewart Street, Suite 1001, Carson City, Nevada 89701. The information is also available on their website at www.pebp.state.nv.us or by calling (800)326-5496.

Note 8– Postemployment Benefits Other Than Pensions (continued):

Funding Policy:

Nevada Public Employees' Benefits Program:

The contributions to Nevada Public Employees' Benefits Program are established and may be amended by the Board of the Public Employee's Benefits Program. The amount of subsidy for City retirees is billed monthly. Amounts contributed by retirees are paid directly to the State of Nevada and, as such, are not available. The required contribution is based on projected pay-as-you-go financing requirements. The City has not elected the option to pay additional amounts into a qualified trust to prefund benefits. There are twelve past employees under this plan.

City of Yerington Health Care Plan:

The City pays the full cost of active employee coverage. Employees pay the full cost of any optional dependent coverage and retirees pay the full cost of their personal and dependent coverage. Claims experience of employees and retirees are pooled when determining premiums and retiree and active employees pay the same rates. Therefore, an "implicit" subsidy of retirees cost by active employees could results. A separate report is not issued for the plan. There are 18 activity employees under this plan

Total OPEB Liability:

Following is the City's total OPEB liability that was measured as of May 31, 2018, and was determined by an actuarial valuation as of July 1, 2017.

\$ 738,743

Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the City and the plan members to that point. Projections of benefits for financial reported purposes do not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

Note 8 – Postemployment Benefits Other Than Pensions (OPEB) (continued):

Significant methods and assumptions used to value both plans are as follows:

Valuation date July 1, 2017

Funding method Entry Age Normal Cost, ((AMM)

Asset valuation method N/A - No trust established

Discount rate (S & P General Obligation Municipal Bond 20 Year High Grade Rate Index)

Participants valued

- PEBP Only current PEBP retirees are valued City Plan Only current active employees and retired

participants and covered spouses are valued. No future entrants are considered

Actuarial assumptions: 3.5% (N/A for PEBP)

3.27% as of May 31, 2018

Projected salary increases Assumed wage inflation 3.0% (N/A for PEBP)

General inflation rate 2.75%

Healthcare cost trend rates 7.8% in 2018 to 5% in 2028 and thereafter

Mortality: The mortality table reflects recent rates developed by the Society of

Actuaries and used the RP-2014 Combined Mortality Table for males and

females.

Note 8 – Postemployment Benefits Other Than Pensions (OPEB) (continued):

Changes in Total OPEB Liability

	Governmental Activities	Business-Type Activities	Total
Balance at June 30, 2017	\$ 473,605	<u>\$ 445,578</u>	\$ 919,183
Changes for the year:			
Service cost	2,710	2,670	5,380

Note 8 – Postemployment Benefits Other Than Pensions (OPEB) (continued):

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:

For the year ended June 30, 2018, the City recognized OPEB expense of \$9,703. At June 30, 2018, the City reported deferred outflows resources of \$37,369 and deferred inflows of resources \$189,245 related to OPEB from changes in assumptions and differences between expected and actual expenses.

	Deferred	Outflows	Deferred Inflows			
	of Res	ources	of Resources			
	Governmental	Business-Type	Governmental	Business-Type		
	Activities	Activities	Activities	Activities

	\$ 76,490	\$ 75,386

Note 9- Fund Equity:

Net position includes the following restricted amounts at June 30, 2018.

United States Department of Agriculture – Rural Development loans require the City to expend specified amounts on the City's utility line replacement projects before it is eligible to request loan advances. As of June 30, 2018 the following amounts were yet to be expended.

Water line project Sewer line project	\$	724,088 373,676
Nevada Division of Environmental Protection grant (AB-198) requires annual contributions of \$23,044 to a Capital Reserve account held for future improvements.		194,927
	\$ 1	1,292,691

At June 30, 2018, the governmental funds had the following fund balance classified as follows.

subsequent year's appropriations.	<u>\$</u>	10,387

Note 10 – Accounting Changes and Restatements:

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, which changes how governments report other postemployment benefits (OPEB) expense and liability. The provisions of Statement No. 75 became effective for financial statements for fiscal years beginning after June 15, 2017.

Note 10 – Accounting Changes and Restatements (continued):

In March 2016, the Governmental Accounting Standards Board (GASB) issued Statement No. 82, *Pension Issues*, which clarified how governments report pension contributions made on behalf of employees. The provisions of Statement No. 82 became effective for financial statements for fiscal years beginning after June 15, 2016. The District did not implement the Statement until this year because the information to implement the Statement was not available at the time the 2017 report was issued.

The June 30, 2017 net position for the District has been restated to reflect the amounts that would have been reported if the provisions of the Statements had been effective at that date.

	Governmental <u>Activities</u>	Business-Type Activities

Restated	88,359	60,487
June 30, 2017 net position as restated	<u>\$4,083,976</u>	<u>\$31,338,775</u>

The prior year information presented for comparison purposes has also been restated.

Note 11– Tax Abatements:

City consolidated tax distributions were reduced by \$213 under agreements entered into by the State of Nevada. The agreements provide for a partial abatement of sales and use taxes imposed on eligible machinery or equipment used by certain new or expanded businesses.

Note 12 - Business License Fees:

The following schedule summarizes all fees imposed by the City of Yerington, which are subject to the provisions of NRS 354.5989. The City's basic business license fee did not increase from the previous year. The population index had no increase and the consumer price index increased by 2.1%.

			FY 2018	FY 2018	Over
	Adjusted	Percent	Maximum	Actual	(Under)
	Base	Increase	Allowed	Revenue	Allowable
	6-30-17	CPI Index	Revenue	Received	Amount
Business Licenses	<u>\$127,323</u>	X 2.10%	= \$129,996	<u>\$ 92,267</u>	\$ (37,731)

Note 13– Transfers In and Out:

The Crystal Clear Water System was previously accounted for in a separate enterprise fund. The City adopted a resolution transferring the operations, including all assets and liabilities, into the Water Utility Fund effective July 1, 2017. The transfer of the net position of the Crystal Clear Water Fund is reported as a special item in the respective funds.

	<u>Transfers – In</u>	<u>Transfers – Out</u>
Crystal Clear Water Fund Water Utility Fund	\$ - <u>2,683,287</u>	\$ 2,683,287
	<u>\$ 2,683,287</u>	<u>\$ 2,683,287</u>

Note 14 - Regional Highways and Street Revenues:

The City participates in the optional nine-cent (\$.09) gasoline tax to fund Lyon County's Regional Highway and Street Fund. The Fund is administered by a Regional Transportation Commission composed of a five-member board of which the City has one representative. The revenues derived from this fund are remitted to Lyon County for proper accounting. The City receives an allocation of the nine-cent tax revenue based on its total assessed valuation compared with the total assessed valuation of the County. Nevada Revised Statutes 373.150 requires any funds not disbursed currently in aid of an approved project shall remain in the fund to the credit of the City. At June 30, 2018, there were funds in the amount of \$616,738 reserved in Lyon County's Regional Highway and Street Fund for the sole use by the City of Yerington. The Regional Transportation Commission must first approve a project plan before any funds will be released to the City. The City recognizes these revenues only upon meeting the revenue recognition criteria as stated in Note 1. In addition, Lyon County holds Road Construction Tax totaling \$74,160 for the benefit of the City.

Note 15 - Risk Management:

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters as are all entities. The City has joined together with similar public entities (cities, counties, school districts, and special districts) throughout the State of Nevada to create a pool under the Nevada Inter-local Cooperation Act. The Nevada Public Agency Insurance Pool (Pool) is a public-entity risk pool currently operating as a common-risk management and insurance program for 106 members.

The City pays an annual premium and specific deductibles, as necessary, to the Pool for its general insurance coverage. The Pool is considered a self-sustaining risk pool that will provide property loss coverage for its members up to \$200,000 per insured event. The Pool obtains independent coverage for insured events in excess of the \$200,000 limit. The Pool also is considered a self-sustaining risk pool that will provide coverage for its members up to \$500,000 per casualty insured event. The Pool obtains independent coverage for insured events in excess of the \$500,000 limit.

The City has joined together with similar public entities (cities, counties, school districts, and special districts) throughout the State of Nevada to create a pool under the Public Agency Compensation Trust. The Pool is considered a public-entity risk pool currently operating as a common-risk management and insurance program providing workman's compensation benefits for its 76 members.

The City continues to carry commercial insurance for other risks of loss such as employee health and accident insurance. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 16 - Major Commitments:

On March 27, 2017 the City was awarded two USDA Rural Development Grants on the Yerington Colony Tribe Water and Sewer Line Replacement project in the amount of \$1,476,000 and \$1,248,000, respectively. Farr West Engineering was awarded a \$350,750 preliminary design and engineering contract with cost incurred at June 30, 2018 of \$151,972 leaving a remaining contract balance of \$198,778. These two USDA Rural Development grant awards provide for 100% funding of said project costs with construction anticipated in the fall of 2019.

On March 27, 2017, the City signed a letter of intent with USDA Rural Development to obligate financing with both loan and grant funding for the City Water and Sewer Line Replacement Project. The estimated total cost of the City Water and Sewer Line Replacement Project is \$35.8 million dollars. USDA Rural Development has obligated \$17,253,000 for the City Water Line Project in two separate loans of \$9,901,000 and \$7,352.000. USDA Rural Development has obligated \$15,577,000 for the City Sewer Line Project in two separate loans of \$8,577,000 and \$7,000,000 along with \$741,000 in grant funding. The terms of the loan require monthly payments of both interest and principal at 1.375% over a forty year period.

Note 16 - Major Commitments (continued):

The four USDA Rural Development loans will be issued as revenue bonds for which the City pledges to generate sufficient user fee revenues to meet debt service requirements. In anticipation of these loans, the City Council authorized rate increases, effective July 1, 2017, for both water and sewer customers. The water rate increased \$2.38 from \$29.00 to \$31.38 and the sewer rate increased \$3.79 from \$28.00 to \$31.79.

Farr West Engineering was awarded a \$5,592,136 preliminary design and engineering contract with cost incurred at June 30, 2018 of \$1,166,235 leaving a remaining contract balance of \$4,425,901.

Before the City is eligible to begin drawing USDA Rural Development Loan funding, the City first must incur initial costs of \$1,311,000 and \$953,000 on the City Water and City Sewer projects respectively. As of June 30, 2018, the City has incurred preliminary engineering cost of \$724,088 and \$373,676 for the City Water and City Sewer projects respectively.

Following is a summary of projects.

	City of Y	erington	Yerington (Yerington Colony Tribe					
	Water Line	Sewer Line	Water Line	Sewer Line					
Loan A	\$ 9,901,000	\$ 8,577,000	\$ -	\$ -					
Loan B	7,352,000	7,000,000	_	-					
Grants	-	741,000	1,476,000	1,248,000					
City contribution	1,311,000	953,000							
Total estimated cost	\$18,564,000	\$17,271,000	<u>\$ 1,476,000</u>	\$ 1,248,000					

Note 17 - Contingencies:

Federal and State Grants

The City received grants from the Federal government, passed through State agencies. These grants may be subject to compliance audits by the grantor agencies and ultimate retention of these monies is contingent upon satisfying the grantors that proper procedures were followed and that the resources were spent in accordance with grant requirements.

Claims and Lawsuits

Lawsuits are occasionally filed against the City of Yerington. The financial impact of these actions, if any, is not determinable at June 30, 2018. However, the City believes it has adequate insurance to cover any potential judgments should a judgement ever arise.

Note 18 - Subsequent Event:

On September 24, 2018, the City awarded a \$357,420 contract to Clean Harbors Environmental Services for sewer pond sludge removal.

Management has evaluated subsequent events through November 29, 2018, which is the date the financial statements were available to be issued.

Note 19 - Compliance with Nevada Revised Statutes:

The City conformed to all significant statutory constraints on its financial administration during the year as detailed in the Independent Accountant's Report on Nevada Revised Statutes Chapter 354 Compliance Examination Report found on page 98 except for expenditures exceeded budgeted appropriations in the General Fund government function and Special Revenue Fund general government function.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and City Council City of Yerington, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, each major fund of the City of Yerington, Nevada, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City of Yerington's basic financial statements and have issued our report thereon dated November 29, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Yerington, Nevada's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Yerington, Nevada's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Yerington, Nevada's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Yerington, Nevada's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE

To the Honorable Mayor and City Council City of Yerington, Nevada

Report on Compliance of Each Major Federal Program

We have audited City of Yerington, Nevada's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of City of Yerington, Nevada's major federal programs for the year ended June 30, 2018. City of Yerington, Nevada's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statues, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of City of Yerington, Nevada's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about City of Yerington, Nevada's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of City of Yerington, Nevada's compliance.

Opinion on Each Major Federal Program

In our opinion, City of Yerington, Nevada, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of City of Yerington, Nevada, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered City of Yerington, Nevada's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of City of Yerington, Nevada's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CITY OF YERINGTON, NEVADA NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2018

Note A- Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of City of Yerington under programs of the federal government for the year ending June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule present only a selected portion of the operations of City of Yerington, it is not intended to and does not present the financial position, changes in net position, or cash flows of City of Yerington.

Note B- Summary of Significant Accounting Policies

Basis of Accounting

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-87, Cost Principles for Audits of State, Local, and Indian Tribal Governments, or the cost principles contained in the Uniform Guidance wherein certain types of expenditures are not allowed or are limited as reimbursement. When applicable, negative amount shown on the Schedule represent adjustments or credits made in the normal course of business as expenditures in prior years.

Indirect Costs

The City has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

Note C – Subrecipients

The City of Yerington did not pass any federal awards received to any other government or not-for profit agencies.

Note D – Matching Requirements

Certain Federal programs require City of Yerington to contribute non-Federal funds (matching funds) to support the Federally Funded programs. City of Yerington has met its matching requirements. The Schedule does not include the expenditure for non-Federal matching funds.

INDEPENDENT ACCOUNTANT'S REPORT ON NEVADA REVISED STATUTES 354.6241

To the Honorable Mayor and City Council City of Yerington, Nevada

We have reviewed management's assertion made in accordance with Nevada Revised Statute 354-624(5)(a) with respect to the funds of the City of Yerington as of and for the year ended June 30, 2018 that:

- The identified funds are being used expressly for the purposes for which that were created.
- The Funds are administered in accordance with accounting principles generally accepted in the United States of America.
- The restricted fund balance/net position in the funds were reasonable and necessary to carry out the purposes of the funds at June 30, 2018 (based on the interpretation of reasonable and necessary provided by the Legislative Counsel Bureau).
- The sources of revenues, including transfers, available for the funds are as noted in the financial statements.
- The funds conform to significant statutory and regulatory constraints on their financial statements administration during the year ended June 30, 2018 except for the two instances of expenses in excess of budget appropriations as described in Note 19.

This assertion is the responsibility of the management of the City of Yerington.

Our review was conducted in accordance with attestation standard established by the American Institute of Certified Public Accountants. A review is substantially less in scope that an examination, the objective of which is the expression of an opinion on management's assertion. Accordingly, we do not express such an opinion.

Based on our review, nothing came to our attention that caused us to believe that management's assertion referred to above is not fairly stated in all material respects.

Yerington, Nevada November 29, 2018
